## MCL (van Dongen, 2000)

Repeated inflation and expansion separates the network into multiple dense regions

Dongen, PhD Thesis

# Analysis

---

1.We optimize the community with “don’t know/know”

2.Community finding

# What we know that we know

---

1

- 6 actors and their leading movies.

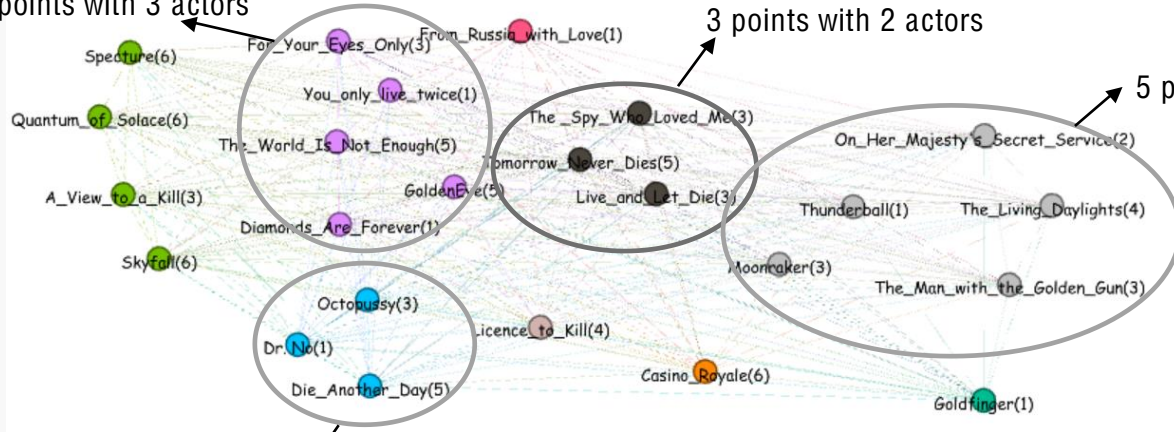

2

- George Lazenby only take part in one.

3

- Pierce Brosnan and Daniel Craig are well-known.

5 points with 3 actors

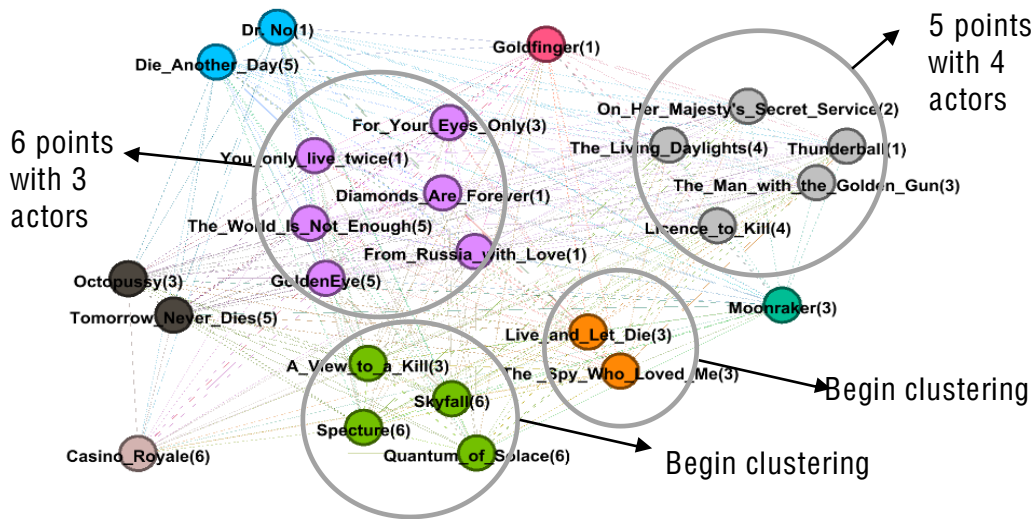

3 points with 2 actors

5 points with 4 actors

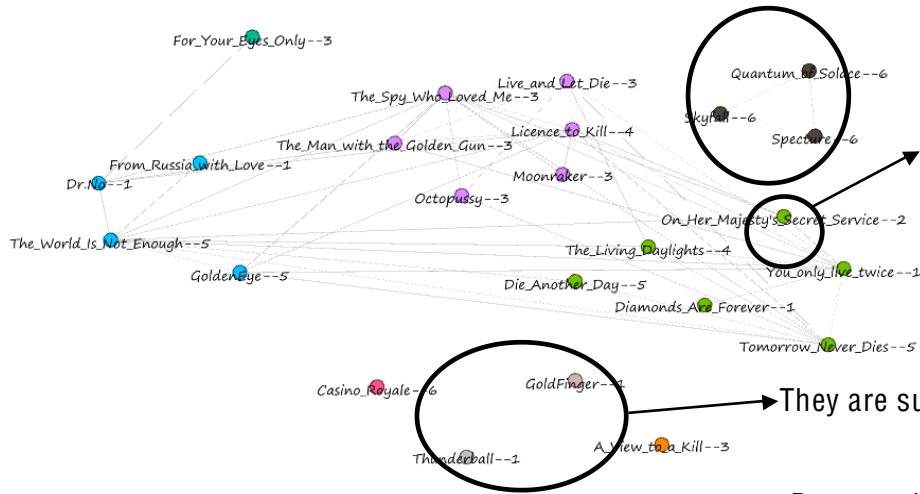

3 points with 3 actors

Single Linkage algorithm:  
We cannot see patterns;  
Solution—using Average Linkage

Average Linkage algorithm:

This is better than SL, but still can not see much patterns  
Solution—using Average Linkage

George is not separate.

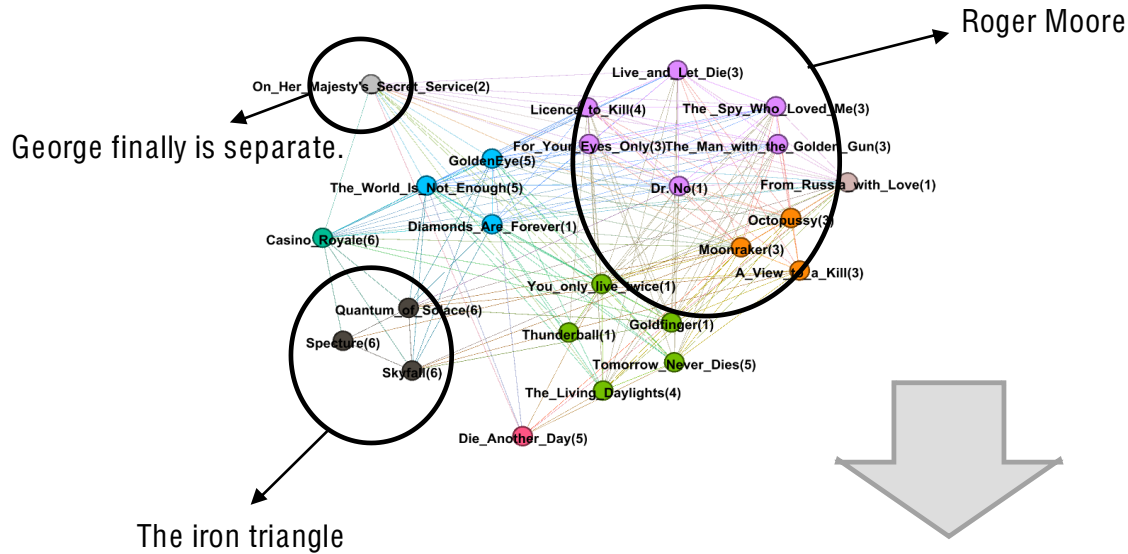

They are supposed to be together.

Reason: the number of Threshold maybe too small.

Complete Linkage algorithm :

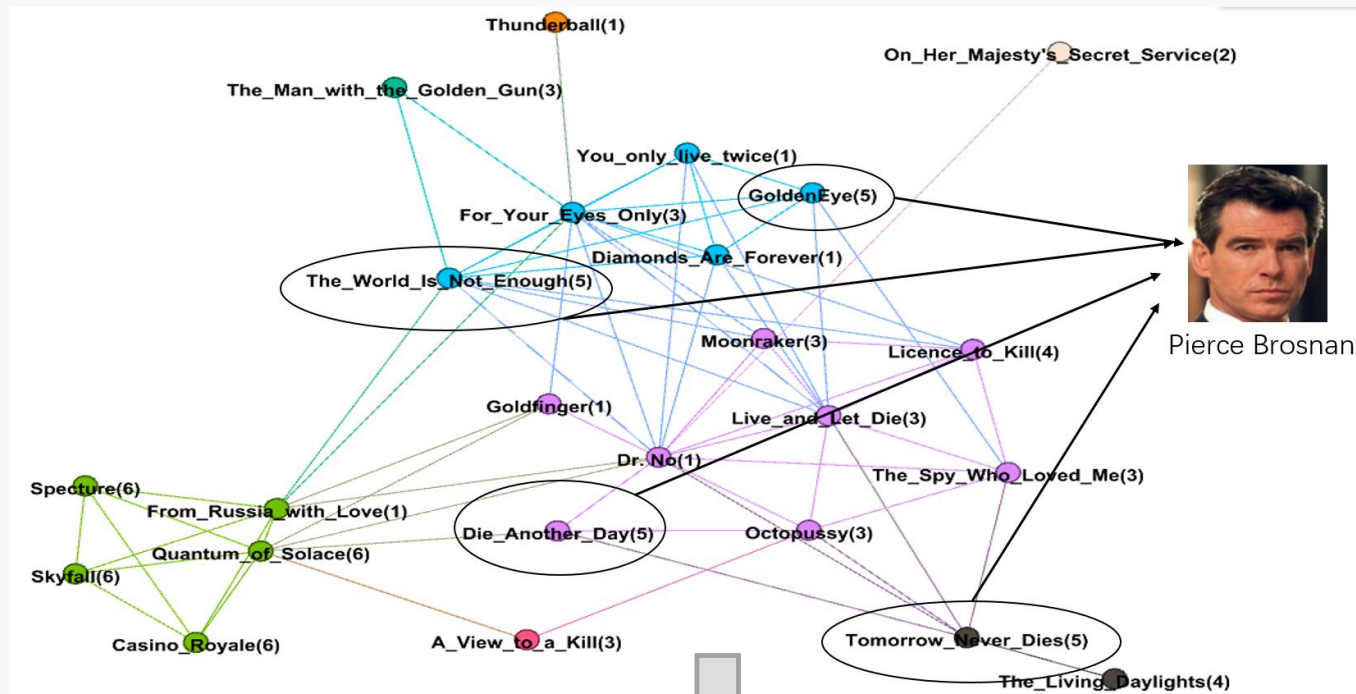

Some obvious clusters emerged;but the thershold were not suitable.

Solution—reset the number in terms of histogram.

Complete Linkage algorithm (high threshold version) :  
We have plenty of results to analyze.

MCL algorithm:  
Some same results as CL, but there are some differences.

What we know that we  
don't know

# Who Is the Best James Bond? Every 007 Actor Ranked

Rank:

1. Sean Connery

We have analyzed why his is successful

THE MOST INFLUENTIAL

2. Daniel Craig

Through the lens of Ian Fleming's classic *Casino Royale* (which had never been given a proper on-screen adaptation), Daniel Craig was perfectly cast as a more serious and visceral version of the character, and director Martin Campbell (*GoldenEye*) once again reinvented Bond for a new generation.

THE MOST UNIQUE

3. Roger Moore

Some fans may not love Roger Moore's more playful, goofy version of 007, but if you discount Connery's role in the unofficial release, *Never Say Never Again*, Moore has played the character more times on-screen than any actor in history (so far). His era of Bond films was responsible for proving the series' longevity after Connery's departure and Lazenby's one-off. He also proved that Bond can work with a light-hearted approach. Moore finally got the chance to prove his mettle after reportedly being in the conversation to take the role before both of his predecessors were cast.

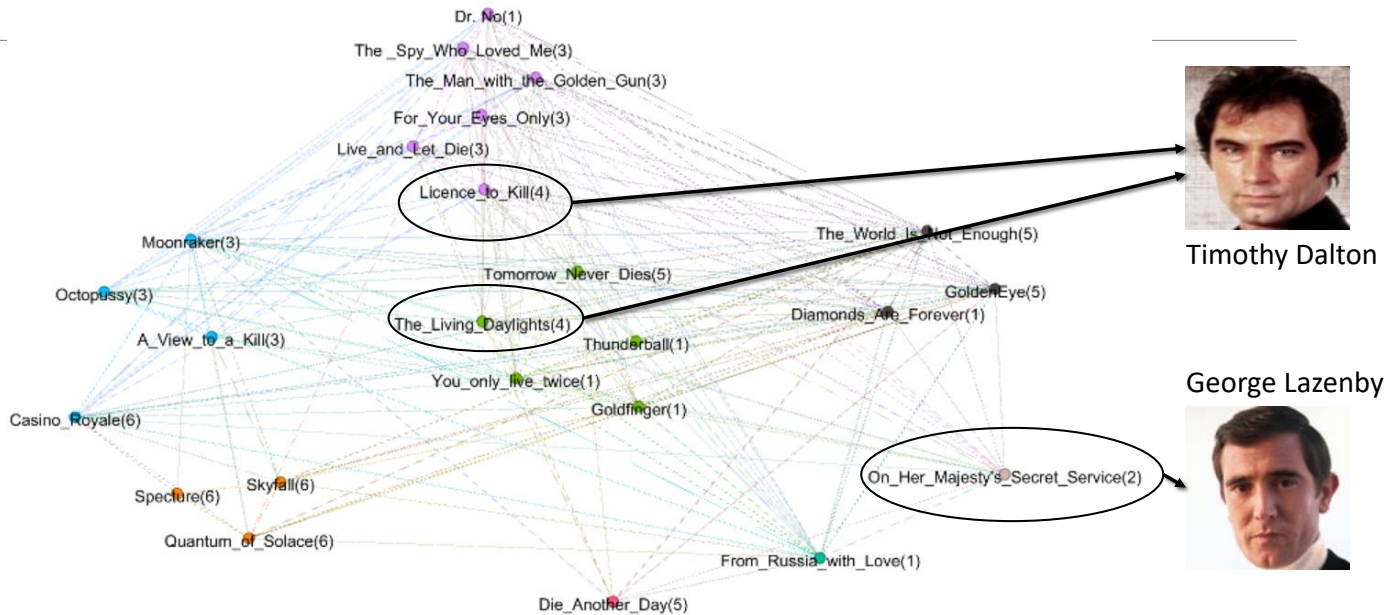

CLASSIC

4. Pierce Brosnan

Following Timothy Dalton's brief run, Pierce Brosnan took the Bond films into a more modern era of action. While he retained the sophistication of his predecessors, Brosnan's Bond proved that the character was still relevant. The actor — who had been in consideration for the role in years past, likely due to his work on TV's *Remington Steele* — proved that the producer's instincts were dead-on. His debut, *GoldenEye*, is also the first film in the series not to be based on Ian Fleming's stories, making his status as one of the all-time great Bonds even more impressive.

THE MOST HANDSOME EVER

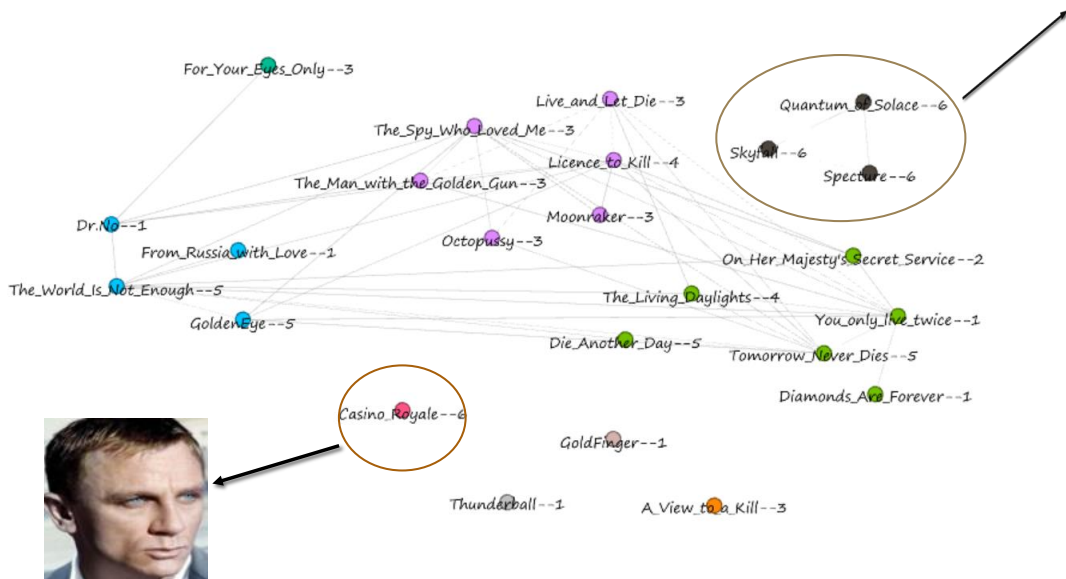

## 2.Vogue role image leading to failure: high value distance

What we don't know  
that we don't know

---

# 1. What happened to Daniel Craig?

# Getting older --wrinkle, Moustache and less hair

---

36 years old  
Casino Royale

40 years old  
Quantum of  
Solace

44 years old  
Skyfall

47 years old  
Spectre

James Bond's role in recent years is set to grow old

The movie at once deals with Bond getting older and the MI-6 we've known being severely changed

来自 <<https://nerdist.com/james-bond-at-53-the-daniel-craig-years/>>

Actor Daniel Craig is getting older

---The 25<sup>th</sup> 007 film will be his final

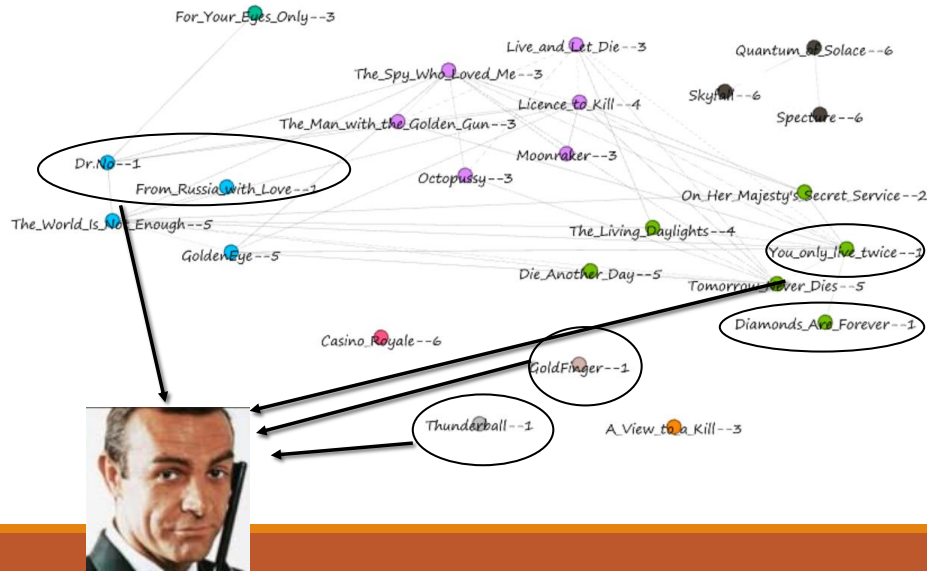

And...we are surprised to find that

Daniel Craig realized this trend and tried to stop it by....  
received plastic surgery.

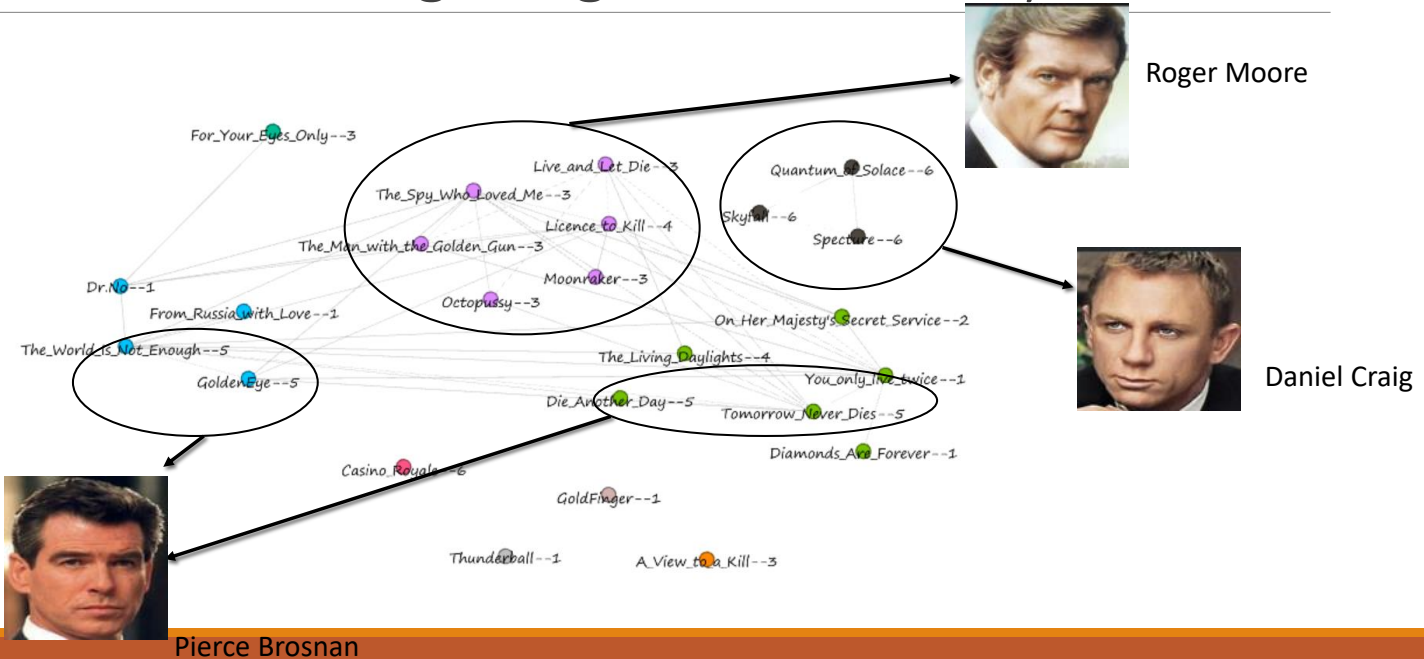

## 2. Sean Connery made attempts, and his performance influenced his successors.

### 3. The character created by three popular actors has a high degree of similarity.
